## Introduction

Personally I had to think long and hard about revealing this killer strategy for free but then I got thinking that if this little report can give you an advantage then you'll most likely want to see my other [ClickBank Secrets](#).

Keep reading and learn some of my ClickBank secret strategies. I've also included a second FREE bonus strategy so you can continue to make your move up the ClickBank Marketplace ladder...

If you enjoy these strategies why not visit my NEW [ClickBank PayDay Blog](#)... It's free and I'll be publishing a lot of strategies as well as videos and articles for beginners.

## Secret ClickBank Strategy

This one strategy can launch your entire ClickBank career as a product owner... it's that powerful. It will get you in the top 10 of ClickBank's Marketplace and in front of the super affiliates very quickly.

This strategy can be done using a number of different forums that have special sections where you can market your products to the entire forum. For example, the Warrior Forum has a section called the WSO (Warrior Special Offers) section.

Here is a small list of the more popular forums that have these types of Marketplaces.

- Warrior Forum <http://www.warriorforum.com/forum/> (WSO)
- aBlake Forum <http://www.ablakeforum.com/> (ESF Marketplace)
- BlackHat Forum <http://www.blackhatworld.com/> (Buy, Sell or Trade)
- Digital Point Forum <http://forums.digitalpoint.com/> (Buy, Sell or Trade)

For this example I'm going to refer to the Warrior Special Offers (WSO) section considering most everyone reading this is already familiar with it.

Here's how this tactic works...

First, setup your product's sales page as per ClickBank's guidelines, get approved through ClickBank and pay the \$49 activation fee to be included in ClickBank's Marketplace.

Now, since this is a brand new product on a brand spankin' new website there will be no traffic to your website yet, and that's a good thing at this point.

After your sales copy and product have been approved by ClickBank go into your account and change the price of your product to your special WSO price.

All the sales will go through your ClickBank account...

However, it's important to follow the rules at the Warrior Forum. Here's one rule in particular you need to pay strict attention to:

*2. A Warrior Special Offer Means The Price You Give Must Be Better Than The Price The Public At Large Can Get. (This is not a "buy my product" forum, it is a "Special Offer" forum)*

Create a second account at ClickBank (*if you don't already have another one*) and become an affiliate to your own product. It's important to note that the second account you setup at ClickBank is a free account.

Now that you have everything setup at ClickBank for your product, you need to create a Special Free Report with some kick-butt information in it and on the last few pages you are going to insert your WSO sales copy for your product.

In this sales copy you are going to mention it's a PRE-WSO and they are in fact getting the REAL WSO special price.

The purchase link in your Free Special Report for your product will be created using your free ClickBank account. You're going to be your own affiliate and this is very important for this strategy to work properly.

Don't forget to create a simple squeeze page for your free report so you can begin building a list of targeted leads.

---

Fly on over to the Warrior forum, create a FREE WSO, pay your \$20 listing fee and give away your Special Free Report.

Once your FREE WSO hits the third page of results in a few days I recommend bumping it at least once by paying another \$20 to get a solid stream of leads.

Offering a Free WSO is the prelude to your actual WSO launch which will happen immediately after your Free Special Report WSO hits the third page for the second time.

Once you're second WSO (Free Special Report) hits the third page you are going to create a brand new WSO for your main product. The purchase link for this WSO will be your affiliate link you created at ClickBank to be your own affiliate.

By using your own affiliate link from that second ClickBank account you are increasing the position of your product in the ClickBank Marketplace rapidly.

Most super affiliates have a special software tool that alerts them to new ClickBank products that are doing well and climbing rapidly so they can jump on them and take full advantage of it.

I recommend bumping your WSO again at least once before going back to ClickBank to change your products price to the original amount before you start promoting it heavily off of the WSO forum.

This strategy will also work with the other forums I've mentioned earlier in this report so now you have no excuses as to why your ClickBank product fails to get any sales.

### **Second Free Bonus Strategy**

After you have successfully completed your WSO and changed the price of your ClickBank product back to the original amount you can take advantage of another quick strategy to keep up the momentum of your product.

This will help you to continue your climb up the rankings in ClickBank's Marketplace so take advantage of these free strategies and make it happen.

Here's the second FREE strategy.

Create a small 10 page report that gives away valuable information. You need to make sure this report has EXTREME value in order for this to work in your favor.

Go to a website called [Butterfly Reports](#)...

You can easily re-write your Free WSO Special Report to conform to the Butterfly Reports guidelines on number of active links, customized 2<sup>nd</sup> page, etc...

Sign up for a free account and follow the video directions on how to prepare your report for uploading to their network.

This is a brand new service that will deploy your special report into the hands of eager buyers. [Mike Filsaime](#) is involved in this project and he is alerting his own list of over 500,000 subscribers about this... Need I say more..?

This will get a ton of prospects to your product website, generate sales and launch you to the top of ClickBank very quickly.

Not to mention, using the Butterfly Reports service will get you a ton of eager affiliates promoting your product.

## **It's The Easiest Cash You'll Ever Make!**

Dear Fellow Marketer!

Give me just 5 minutes to explain how I went from broke, desperate and near suicidal to making over \$10,000 a month for the last 18 months straight...

If you're anything like me, making money from home **sitting on your duff** has always seemed very attractive.

I remember way before the internet came along, leafing through the pages of popular make money magazines like Home Business Opportunities, Small Business Opportunities, Entrepreneur magazine, and a ton of Franchise guides...

It was almost like I was addicted to these types of magazines and the offers inside them. Spending \$200 a month on information guides was nothing out of the ordinary and this continued for the next 3 years.

By time the internet was in full bloom I was looking for a way to "crack the code" sort-of-speak and make money sitting behind a monitor in my basement in my underwear.

**Fantasizing about the hundreds of dollars a day** flooding my virtual bank account was very addicting, even though I continued to spend even more money every month buying courses and make money plans... (*Something about instant delivery really hit a magic button with me*)

Before I knew it creditors were calling my house on a daily basis, my credit score was into the negatives and life pretty much sucked at this point.

I had a ton of sh\*t on my computer and hadn't even looked at 90% of it...

Later I **realized the reason I hadn't made a nickel online** was because I didn't have a simple down to earth plan to follow. I kept buying product after product looking for a magic bullet to get me out of debt instantly but it just wasn't there.

That's when it occurred to me...

After a few days of brain storming I came up with a plan and for the first time in a long time I was really excited. But this time I was determined to stick with the plan until I made money...

**To be honest, I had no other choice.** I was out of money and sick to death of all the "Hype whores" rakin' it in!

## Easy ClickBank Publisher and Affiliate System I Used To Go From Zero To \$10,000 A Month...

After 5 days of following my plan (*which wasn't perfect at the time*) I made my first sale. I was stoked... and **this lit a fire under my ass** like nothing else I can remember.

Not everything I tried worked but a few things did and I was enjoying a few hundred bucks a month quite steadily.

Now this wasn't going to pay off the creditors any time soon but I knew I was on to something and a few hundred was a lot better than a kick in the teeth.

If a few hundred bucks can be generated from doing what I was doing then all I had to do was ramp it up a notch and I'd be on my way.

Well, I was wrong... at first!

**The kinds of things I was doing took a lot of time because quite frankly I had no clue what was working from what was wasting my time.**

I whipped out the calculator and began crunching the numbers... GOOD GRIEF... I'd have to work 42 hours a day to make the kind of money I needed.

Now I know you're smart enough to realize there just isn't 42 hours in a day so what I really needed to do was find out EXACTLY what was NOT working and eliminate that from the equation.

This took far longer than I originally thought because I didn't have the first clue about how to track and test everything I was doing. But I was determined to make this work... after all I had **UNDENIABLE PROOF** this was working... **I just had to fine tune it.**

Soon after I eliminated the things that weren't working and concentrated all my efforts on the things that were my income jumped dramatically.

The checks were getting bigger and bigger each month... to the point where I went from literally nothing to making over \$10,000 a month for 18 months straight.

### **\$18,000 Of Pure Luck!**

My biggest success was pure luck and I hit a home run that generated \$18,000 in three months! Over the next few months that followed the creditors were paid in full; I purchased a 2,200 square foot home and my first brand new car.

Did I mention I **"Fired my Boss" too...** What a great feeling that was. It was funny how it all went down and to this day my co-workers are still talking about it.

You see, my boss was a raving lunatic... always yelling at the guys to work faster, take shorter lunch breaks and miss afternoon breaks altogether.

The day came when I skipped work for the first time in 2 years. He was pissed but later in the day I showed up. I was on my way to the bank to deposit a few checks when I thought of stopping in at work to eliminate my boss from the equation.

Right away he asked what the hell I was doing showing up for work so late. Right in front of everyone sitting in the lunch room I popped my cork and let him have it.

### **"You're Fired"... and Everyone Was Stunned!**

I don't want to repeat exactly what I told him, but it was an ear full and the last thing I remember saying before I walked out the door was "... *and another thing – YOU'RE FIRED!*"

The guys all looked at me **like a deer caught in the headlights...** they were stunned to say the least... and I calmly walked out and never looked back.

**It's definitely something I'll never forget... or regret!**

Now I sit in my new home in my own private office and follow my plan. Every once in a while I'll get new ideas and try them out, but for the most part this plan is what really **helped me "Break Free"**.

If you can remotely relate to my story then this may be just the thing for you too. Who knows, maybe you'll do better than me. But what I do know is if you stick to a plan that works long enough... pretty soon it will start working for you too.

So now I'd like to **reveal this plan to you** and give you an opportunity to create your own success starting from scratch... armed with my plan.
